CLARIFICATIONS & ADDITIONAL INFORMATION

Arkansas: (confirmation) Beer. B48 \$2.50 orange, Otho A. Cook, \$75 unused. (Matesen)

Arkansas: Coin Operated Devices. Updates to latter parts of Amusement Machine (AD), and Vending Devices (VE). See State Revenue News article by Hermann Ivester to be published. Listing to be attached here also.

California: (update) Recently uncovered documentation shows AG1-4 were used on watermelons only. They are still not known as evidence of tax/fee paid. (Jackson)

California: Tomatoes. (clarification) TM147a has "R" at left, and also "D" at right. (Florer, Pruess)

Florida: Beer, Bottle Caps & Labels. (update) Beer can lids have now been reported with "FLORIDA" inscribed as has been previously seen for bottle caps. (Kohtz)

Florida: Documentary. (update) Note added to 1933 Lee signature series. "Previously listed imperforate varieties are believed to be unfinished examples since none have been observed on document. All but the \$100 are known in a pane of 100. These are scarce." (Semsrott, Wrisley)

Georgia: Liquor, Exported. (clarification) EL2c. Horizontal, straight line safety with periodic text "ANCHOR/SAFETY PAPER" \$10 unused & used. [EL2d will be delisted as ambiguous.] (Gray)

Idaho: (clarification) ID E69a: listing should more accurately read "It gray to white"

Idaho: (update) Beer, B54-56. Earliest date reported now 1949.

Idaho: (update) Beer, B57-65 and B66-70 (the 2 "OFFICE OF TAX COLLECTOR" series). It may also be true that suffix letters are only serifed, or sans serif respectively in the two series. Different style sans serif letters have been observed, but not in the same denomination.

Maine: (update) Beer. Only B1-6 were issued with gum. B8-25 are punch cancelled. (Leshner)

Michigan: (clarification) Malt. In distinction to green MA18, the color of MA18a might also be described as yellowish olive green. Only one MA18a has been observed, and it may also have a more crudely printed appearance.

Mississippi: (confirmed) Fertilizer Tags. Like FTT10. 1915-16 H. E. Blakeslee signature. FET6, 100lbs, black on blue gray, \$40 used. 68x41mm portion known, w/o patch. (Ivester, Wrisley)

As of 8-12-2014

As of 8-12-2014

Mississippi: T76 also known unused. (Troutman)

Nevada: (clarification) Documentary. Except for the single and double star 2c, although there are different inscribed designs, each denomination has the same design throughout.

North Carolina: (clarification) Linseed Oil. LN11a, 5c, black, thin paper, un gummed, “-“ unused. (Matesen, Troutman)

Oklahoma: (update) Cigarettes. C46. Date uncertain. (Matesen)

Pennsylvania: . (confirmed) Syrups & Soft Drinks. SD28. (Leshner)

Pennsylvania: (clarification) Bedding. BD10 & BD16. The asterisk in the BD10 description refers to the note after BD16. The appearance of the “fork & arrow” design may differ in individual stamps, e.g., primarily horizontal lines, and the fork and arrow may be difficult to see. A seal like the inscribed design may also be present in some stamps. (Wrisley, Leshner, Troutman)

South Carolina: (update) Oysters. There is evidence that the regular and narrow “No.” are pane varieties (true at least for OY77 & OY77b). This may be true elsewhere in seafood stamps. (Bilek, Troutman)

South Carolina: (existence doubted) AM8. (Wrisley)

Texas: Feed Tags. (clarification) FET13 also has “COLLEGE STATION” and “TEXAS” text shifted right so “O” of “COLLEGE” under “E” of “EXPERIMENT”. Also open circle “period” after signature. (Wrisley)

Texas: Beer. (update) Earliest date reported should now be 1936. (Matesen)

Texas: Beer. (clarification) B44 probably issued before B43. Earliest date reported for the series beginning with B40 should be 1937. (Matesen, Cabot)

Texas: Texas Citrus Fruit Quarantine: These also exist for the 1930s. (Florer)

Utah: Liquor Seals, Bottle Labels. (update) The colors of LL6-7 are the same as LL3-5. (Matesen)

Utah: (confirmed) Cigarettes. C53, 20 cig, lt purple (“black & lavender”), 2-1/2mm tall control #, “-“ used. 11x11mm. (Matesen)

Virginia: (update) Documentary Stamps. The earliest date reported for D2 is 1902. (Leshner)

Washington: Wine. (note added) 1936 series, W7-14. Examples of the 1/5 gal are known printed in several of the issued colors with no serial number, and with manuscript issued prefix letters. (Jackson)

Washington: (clarification) Fruit. 1948 and 1949 series \$100. Unsigned does not necessarily mean unused. Regarding used examples: FR21, almost all were signed, but only about half were cancelled. FR23, about one half were signed, and few were cancelled. (Matesen)

Washington: (clarification) Honey. HL40-42. The illustration above HL40 shows the “Skagit” distinction for HL42. HL40-41 (larger ones) have “Packed by Skagit...” in blue on white background at bottom. In the latter the U. S. Fancy panel also has slightly different wording and layout. (Matesen, Wrisley)

As of 8-12-2014

As of 8-12-2014

Washington: (confirmed) Electrical Inspection. Gummed. Slot perforated 6-3/4. The only denominations known unused are 25c and 50c (the 25c is not known used). Used examples known pen, broad marker, or hand-stamp cancelled. Considering rarity, the values of specimens are generally \$25-50. Legitimate used examples are worth \$50-100. A new listing will be attached to this update list. (Matesen)

Washington: Electrical Inspection. (confirmed) ELC10b, red, large defect near thumb in seal. (Matesen)

Washington: (update) Motor Vehicle. Although not a listed category, these are worth much more than the \$15-20 stated, rather \$100+.

Washington: (new note) Cigarettes. C6 & C7 exist punched, off card, encased in plastic. (Matesen)
